

# Aqua Global Company Profile

Aqua Global Solutions was established in September 1983. It is headquartered in London and currently has 4 other regional offices across the globe in Poland, Luxembourg, Indonesia and the USA. Aqua Global is a leader in financial message management to the world's top financial institutions including retail and wholesale banks, wealth and asset management firms as well as fund administration institutions.

Aqua Global provides a world class service for its extensive portfolio of financial solutions and specialises in Straight-Through Processing (STP) for payments, treasury, funds and securities processing. Unlike other solutions in the market, all of the modules are incorporated into one integrated product called e<sup>2</sup>gen which eradicates the needs for multiple servers and solutions. These modules all co-exist within a single shared database and are delivered as a complete solution. This allows customers to deploy additional modules quickly and at a pace that suits their business requirements.

e<sup>2</sup>gen has off the shelf adapters for many leading core banking solutions mentioned below. It can also be integrated into many other systems and external services, including those that are in-house as well as proprietary ones. e2gen also has the capability to be configured to meet all of your SWIFT, local clearing and internal services such as internet and mobile banking requirements.

The portfolio of products is as follows:

Modules
1. Trade Capture and Booking
2. Settlement Message Production
3. Message Matching
4. Message Management
5. Invoice Payments
6. Cash and Liquidity Management
7. Sanctions Monitoring
8. Account and Securities Reconciliation
9. Balance and Holdings Reporting
10. Document Management

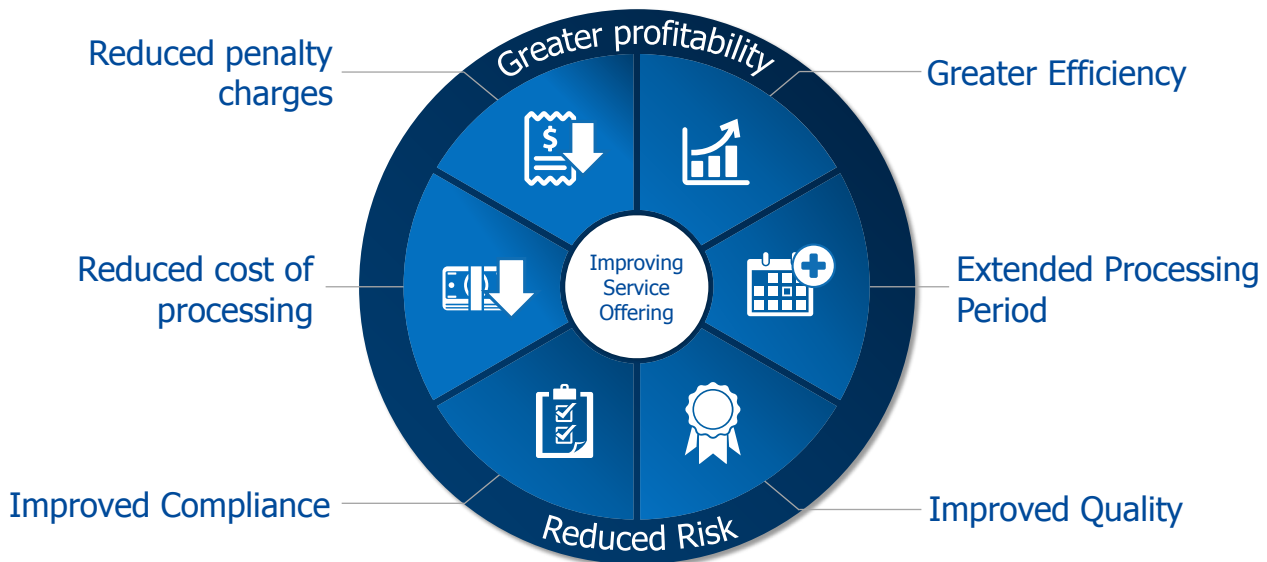

Typical Core Systems
1. Midas/ Midas Plus
2. Equation
3. FusionBanking Equation / Midas
4. Trade Innovation
5. OLYMPIC Banking System
6. ICBS Signature
7. Milvus / G3
8. T24
9. Silverlake
10. And many others

If you would like to arrange an obligation free consultation or for further information please contact Aqua Global on +44 (0)20 8544 3200 or e-mail [sales@aquaglobal-solutions.com](mailto:sales@aquaglobal-solutions.com)

e<sup>2</sup>gen enables financial institutions to automate and simplify their business processes. The suite has proven high scalability and bi-directional STP capabilities, allowing exceptions-based processing from deal entry to final settlement. The suite enables extremely high levels of automation which in turn, improves accuracy, audit & control.

## Benefits

- Any new standards for existing or new services can be easily adopted (e.g. SWIFT updates).
- Offers the ability to run basic and complex financial processes more efficiently.
- Simple high availability disaster recovery solution that can be synchronised in real-time with the main back office system.
- e<sup>2</sup>gen enables innovation through the use of pluggable/customisable rules, events and workflows.

## Solid Foundation, Continuous Presence

Aqua Global's aim is to continue empowering even more institutions to take full control over their finances, forging a strong number of business relationships whilst maintaining its status as a dependable business partner across the globe.

Aqua takes pride in providing cost effective solutions that give a rapid return on investment. Aqua Global strives to remain ahead of the evolving financial industry ensuring its dynamic solutions successfully meet the ever-changing requirements of its clients.
